SIUC first in the country

Teaching behind bars is challenge

by Gordon Billingsley
Public Information Specialist
School of Agriculture

"Forget injuries, never forget kindness—Confucius."

That poster on the wall is but one reminder that this class is not typical. For this class—college-level agricultural economics—is being taught on the sobering side of two fences and seven locked doors.

Among the classmates: Robinson, C-87838; Nichols, A-92521; Smith, C-61908; all "residents" of the Illinois Department of Corrections' medium security prison in Centralia.

"It's a challenge," says course instructor George Shumaker, an assistant professor of agricultural economics in the SIUC School of Agriculture.

"It also can be frustrating. It's really frustrating when I can't change their

thinking. Sometimes their minds are just made up."

The students are unlikely candidates for Shumaker's class. Most have distinctly urban backgrounds.

Just the same, authorities and SIUC officials say such classes benefit correctional center residents.

"It's true that many of the residents don't know beans about agriculture," said George Stickel, an SIUC continuing education coordinator.

"They often think you have to be knee deep in a hog lot to have any involvement in agriculture. Agriculture is almost a dirty word," he said.

Many of the students—looking back on their agriculture class experiences so far—apparently are willing to concede there is value in the class. Those who don't outright are willing to argue the point.

"Before I got in jail I studied business; now I study sociology," said resident

Donald Nichols. "I have enough hours to get a degree in either subject. The basics I learn here will apply to the rest of the world, too. So the class can be seen as helpful."

Resident Reginald Smith said: "I'd like to see a more liberal economic viewpoint from time to time. All the economists who teach here seem to be conservative."

Shumaker's students say they enrolled in the agriculture class in order to qualify for another SIUC offering called language and behavior.

"It's a package deal," one said.

That deal drew some skepticism. Resident Donald Baker, who's working toward a bachelor's degree in political science, said he isn't sure how a course in agriculture can help him.

"But it has turned out to be interesting at times," he said.

How is the class from Shumaker's point of view?

"I don't try to fool myself," he said. "The students here aren't necessarily interested in agriculture. Their time in the classroom helps alleviate boredom and it can help their records. The time I spend here helps them either way."

"In many ways, these are typical students," he said.

But they are, of course, atypical students—marked by an imposed caste system of color-coded identification badges and clothes.

The color is blue. Blue badges, blue pants, blue shirts. That deadening monochrome is softened by a tan sweater or a white pair of tennis shoes.

At each gathering of blue—in the compound or hallways—there are two attendants in green. Patches on their arms label them as guards.

On a night when a visitor is allowed to accompany Shumaker into the classroom,

Law Transfer

Despite Arctic-like temperatures and several inches of snow, Physical Plant workers were able to transfer some 120,000 volumes to the new law library in the Lesar Law Building. Although

classes have been held in the building since August, the opening of the library had been postponed due to a delay in the deliverance of the bookstacks. The library now is open.

University relations VP candidates down to three

The search for a new vice president for University relations at SIUC has narrowed down to three candidates, two of them development and fund-raising specialists and the third regarded as a top major-university public relations expert.

Brought to the campus for early-December interviews were:

—Arthur V. Ciervo, director of public information and relations at The Pennsylvania State University;

—William J. Farrell, associate vice president for educational development and research at the University of Iowa;

—Stanley R. McAnally, assistant vice chancellor for development at the University of Missouri-Columbia.

The three are the finalist choices of a campus search committee headed by Charles H. Hindersman, acting vice pres-

ident for University relations.

Ciervo, a former newspaperman and wire service reporter, went to Penn State in 1976 after a 10-year career at Georgetown University, where he developed an award-winning public relations program.

Farrell heads an office organized to generate outside support for Iowa programs. The Big Ten school realized \$67 million in grants last year, much of it for research.

McAnally has been in charge of Missouri's overall development program for a year and a half. Before that, he worked for some 18 years in alumni operations at the University of Tennessee, Knoxville, serving his last three years as associate vice president for alumni affairs and annual giving for the University of Tennessee system.

Missouri, W. Kentucky

Neighboring states' students can pay in-state tuition

Residents of Missouri and western Kentucky interested in enrolling in graduate-level programs at SIUC now can do so at in-state tuition rates.

Beginning with the current spring semester, persons living in Missouri and 14 western counties of Kentucky qualify for the reduced rates, according to John S. Jackson III, acting dean of the SIUC Graduate School.

The reduced rate for Missourians will apply to students who enroll at SIUC for six or fewer semester hours. Tuition changes do not apply to students who enroll in the University's Schools of Law and Medicine.

SIUC's out-of-state students generally pay tuition pegged at a rate three times that for Illinois residents.

The new tuition policy was approved last March by SIU trustees in recognition of the fact that the regions served by the SIU System don't necessarily end at state lines.

The policy was approved subject to review at the end of a three-year period.

Trustees left the decisions on if and when to implement the change up to campus presidents at SIUC and SIU-Edwardsville.

SIUC President Albert Somit decided to act on the new policy after a review of its potential effects and possible benefits, according to Jackson.

"It should help us in dealing with some unused capacity at the graduate level. It is a policy that is being used by Murray State University in Kentucky and universities in Missouri to attract more students from neighboring states," said Jackson.

"I think it is a wise move in an era when difficult financial times suggest the need for increased cooperation with neighboring states and institutions. This

is one way to develop those lines of cooperation."

Jackson said the diversity of SIUC graduate-level programs should make the new tuition policy an attractive one to residents of southeast Missouri and western Kentucky.

"In Kentucky you have to go as far east as Lexington and in Missouri as far west as Columbia to find universities with the breadth of graduate program offerings available at SIUC," said Jackson.

Under another provision of the plan approved by SIU trustees, SIUC already has accepted several Southeast Missouri University students into Ph.D.-degree courses in the Colleges of Education and Liberal Arts.

Those students will pay in-state tuition for the special courses they are taking.

Western Kentucky counties whose residents are affected by the tuition rate change are: Ballard, Caldwell, Calloway, Carlisle, Crittenden, Fulton, Graves, Hickman, Livingston, Lyon, Marshall, McCracken, Trigg and Union.

Inflatable chair makes Smithsonian Institution

A simple but practical invention has placed SIUC lecturer Davis J. Pratt in the company of such designers as Frank Lloyd Wright, Eero Saarinen and Charles Eames: all of them have works on display in the Smithsonian Institution Traveling Exhibition Service show, "Innovative Furniture in America."

Pratt, who teaches in SIUC's design department, caught the eyes of furniture buffs and designers more than 30 years ago with his prize-winning invention: an inflatable easy chair.

Attempts to put the chair into commercial production failed, however, and Pratt's design fell by the wayside.

Now, more than three decades after it was chosen to be part of the Museum of Modern Art's design collection, Pratt's invention has received renewed recognition as a featured exhibit in the Smithsonian's traveling furniture show.

"It probably could be compared to the Pulitzer Prize of furniture design," said David Clarke, director of SIUC's Division of Comprehensive Planning and Design.

Wilbur C. McDaniel honored by AAUP

Longtime SIUC faculty member Wilbur C. McDaniel was honored Nov. 12 by the Carbondale chapter of the American Association of University Professors (AAUP).

McDaniel received the chapter's Willis Moore Award for "outstanding service to AAUP and SIU" during the group's annual dinner at University House.

A member of the department of mathematics faculty for 33 years, McDaniel retired from SIUC in 1972. He was chairman of the department from 1951 to 1960, and directed the University's Summer Institute in Mathematics for 12 years.

McDaniel served on the Faculty Council, University Council, Graduate Council and Faculty Senate. He held the posts of secretary, vice president and president (three terms) of the Carbondale chapter of AAUP.

McDaniel was a founding member of the SIU Employees Credit Union and a board member of the Jackson County Teachers Credit Union.

The Willis Moore Award was initiated five years ago by the Carbondale chapter. It is named after the former SIUC philosophy department chairman and SIU trustee.

AID Awards SIUC \$865,000 grant

The U.S. Agency for International Development (AID) has awarded SIUC \$865,000 to build a high-power radio transmitter for an unusual teacher training effort in the Asian kingdom of Nepal.

The transmitter, which will be located in the capital city of Katmandu, will be used by SIUC educators to beam training materials via Radio Nepal to grade school teachers who have been equipped with short-wave receivers.

The SIUC teacher training project, undertaken with a \$2.2 million grant from AID in 1978, is expected to eventually reach some 2,500 teachers, most of them located in primitive, isolated mountain valleys.

SIUC instructor Davis J. Pratt designed this chair some 30 years ago.

SIUC work week might be cut to 37½

The 37½-hour work week may be in the cards for SIUC employees later this year if President Albert Somit approves such a plan.

SIU's board of trustees voted last month to authorize SIU's two presidents to shorten the standard work week if they choose, subject to approval by system chancellor Kenneth A. Shaw. The soonest such a switch could take place would be July 1.

The trustees noted that state government employees and those at all state universities except SIU and the University of Illinois already work the shorter week.

When the proposal first came up at the board's November meeting, Somit estimated that reducing the work week from 40 to 37½ hours would probably cost SIUC \$250,000 a year in overtime pay to maintain such round-the-clock operations as computer services, security and residence halls supervision.

Somit predicted, however, that the shortened work week would have little effect on productivity. "Most of our employees would make the extra effort to do the work in less time," he said.

Health education rated nation's second best

Professionals around the country think pretty highly of SIUC's department of health education.

According to a nationwide survey of 160 health education departments conducted by the University of Illinois' department of health and safety education, SIUC's graduate health education offerings came out near the top of the list.

The survey ranked SIUC's health education Ph.D. program second among the more than 40 similar degree programs studied, and placed the University's master's degree program in health education seventh among about 120 departments.

SIUC's health education Ph.D. degree program was ranked second to the U of I's and ahead of those at Ohio State, Oregon, and Indiana in a "First Five" list.

Ranked with SIUC in the "Second Five" list of master's degree programs were Wisconsin-La Crosse, Ohio State, Indiana and Maryland.

Researchers set hot pace

Faculty researchers at SIUC are continuing the hot pace that netted them outside funds to pay for nearly 550 research, training and service projects during the last fiscal year.

Grants and contracts from federal, state and private agencies wrapped up by SIUC researchers in the five months between July 1 and early November of 1981 totaled \$13.8 million, according to preliminary figures kept by the University's Office of Research Development and Administration.

The tempo equals that of the 12 fiscal-year months before last July 1, when federal, state and private agencies awarded SIUC \$27.5 million to support 544 projects—a record-setting year.

In the first five months of the new fiscal year, SIUC faculty researchers brought in 104 research grants and contracts totaling \$3.1 million; 53 training grants and contracts worth almost \$7.8 million; and 35 other awards worth more than 2.8 million.

Last year's totals included about \$9.8 million in research grants and contracts

(an 11 percent increase over the previous year); almost \$6 million to support training projects; and about \$11.7 million to support community service projects, educational programs and other activities.

Funding for training and other miscellaneous projects remained about the same as in the previous year.

Most prolific producers of grants and contracts during the 1980-81 fiscal year were:

—the Graduate School, with 14 research grants worth \$2.7 million, and the College of Science, with 61 research grants and contracts totaling \$1.4 million;

—School of Technical Careers, with 50 training grants and contracts which added up to almost \$1.5 million, and the School of Medicine, with 14 awards which totaled about the same amount;

—The University's Office of Student Work and Financial Assistance garnered nine awards worth about \$8.4 million, and the College of Communications and Fine Arts brought in 28 grants and contracts worth almost \$1.4 million for community education and service projects.

SIUC project may save coal dollars

A three-and-one-half year research project that could result in countless future dollar savings for coal companies and others concerned with land reclamation has been launched by SIUC's cooperative Wildlife Research Laboratory.

SIUC researchers and Southwestern Illinois Coal Co. officials have signed an agreement to turn 50 acres of slurry impoundment at Southwestern's Captain Mine in Perry County into a demonstration reclamation project.

A three-man research team from the SIUC laboratory will undertake full-scale testing of a reclamation procedure that SIUC piloted successfully in a smaller study begun in 1977 at the Monterey Coal Company's No. 1 mine near Carlinville.

The experiment involves planting of reedgrass in abandoned slurry ponds. The Monterey experiment indicated that

revegetating slurry ponds with reedgrass—a hardy perennial—is an efficient alternative to using topsoil, according to Willard D. Klimstra, director of the wildlife laboratory.

Reedgrass also provides erosion protection, enhances conditions for wildlife habitat and can be established without soil cover, Klimstra said.

The technique eventually could save millions of dollars in costs by eliminating the existing requirement for four feet of soil cover in mine reclamation work, researchers believe.

The project is supported by a \$126,847 grant from Arch Mineral Corp. of St. Louis, plus \$55,000 in personnel support from SIUC and some \$20,000 in personnel and equipment support from Southwestern Illinois Coal.

Tissue transplants may cure diabetes

A medical researcher at SIUC has embarked on a three-year study to see if diabetes can be treated successfully by the use of tissue transplants.

The procedure—proven remarkably successful in controlling the disease in laboratory mice—may someday contribute to a permanent cure for humans, said Earl L. Parr, professor of anatomy in SIUC's School of Medicine.

"I wouldn't say we're on the brink of a breakthrough, but it looks promising," he said.

Parr first experimented with tissue transplantation in mice while on the faculty of the University of Adelaide in Australia two years ago. The procedure involves injecting diabetic mice with the insulin-producing cells scraped from a healthy pancreas (the gland associated

with the production of insulin).

"In most cases we found that the blood sugar would drop to a normal level in as little as three or four days following the transplant," Parr said.

The experiments have not been without problems, however: the grafted tissue is often rejected by the host. Parr proposes to counteract this phenomenon, with the aid of an electron microscope, by separating the insulin-producing cells inside the grafted tissue from the antigenic cells—those that trigger rejection.

"This has never been done before," Parr said.

He's applied for \$113,543 grant from the National Institute of Health for a full-scale experimental program to start in July.

VOL. 44, NO. 4, JANUARY, 1982

Alumnus, Southern Illinois University at Carbondale (USPS 016-160), is published six times a year, in January, March, May, July, September and November, by the Southern Illinois University at Carbondale Office of Alumni Services, Carbondale. Member of the Council for Advancement and Support of Education. Payment of membership dues of \$10 annually or \$150 lifetime membership entitles an Alumni Association member to all alumni publications. Subscription to *Alumnus* is by membership only. Second class postage paid at Carbondale, Illinois. All information concerning alumni, including address changes, should be sent to the SIUC Alumni Office, Carbondale, Ill. 62901. Printed by the *Daily Egyptian*, SIUC, Carbondale, Ill.

First Snow

This group of Malaysian students, all residents of Wilson Hall, spent their first days in Carbondale building their first

snowman. The Malaysians are the largest foreign population on campus with over 500.

Business school, WSIU celebrate anniversaries

The magic numbers are 20 and 25 this school year for folks at SIUC who like to keep track of special anniversaries.

This spring will mark a quarter-century on campus for SIUC's College of Business and Administration, while the University's Broadcasting Service earlier marked 20 years on the air and broadcasting from its studios on the Carbondale campus.

The College of Business and Administration plans a semester-long series of activities to mark the event and remind people how long it's been around, according to David N. Bateman, associate professor in the college's department of administrative sciences and chairman of a college-wide anniversary steering committee.

Twenty-five years ago, SIUC's College of Business and Administration was put together out of the remains of the University's old College of Vocations and Professions.

Special events planned to mark the special year for the College will begin in February and range from a 1950s-style formal dinner and dance to the ceremonial naming of the General Classroom Building

(home of most College activities) for Henry J. Rehn, first dean of the School of Business and Industry, which later became the College of Business and Administration. Special activities during the college's annual Spring Business Week also will be designated as anniversary events.

SIUC's Broadcasting Service, which is home for the University's National Public Radio and Public Broadcasting Service television outlets, quietly reminded its listeners and viewers of its first tentative efforts in 1961 during a weeklong series of brief announcements early in November. Station-break reminders and short film and tape clips highlighted the people who helped move broadcasting at SIUC from a small but enthusiastic working fellowship to a television-FM radio operation that blankets much of Southern Illinois.

Anniversary salutes included those to Buren Robbins, pioneer radio and television teacher at SIUC and first director of the Broadcasting Service, and former SIUC President Delyte W. Morris, who saw broadcasting as yet another way to spread the University's service mission.

TEACHING From Page One

a guard stands outside the door. Keys jangle as he walks with a custodian from room to room. No one looks up.

Still, despite these tell-tale restrictions on activity, the class is informal. Some students sit at study carrels, others at tables around the tan-walled, cinder block classrooms.

On the hour, class begins. Overhead the fluorescent lights hum loudly.

Shumaker's class—"Marketing of Agricultural Products"—is only one of many offered by SIUC in Illinois prisons.

Nearly 100 inmates of four state prisons and the federal penitentiary in Marion enrolled in 13 classes in the fall of 1981. Seventeen classes are going on this semester.

No university in the United States has more experience at offering such classes.

"SIUC first started teaching behind walls in 1956," Stickel said. "We were the first university in the country to do it."

Charles A. Helwig, who coordinated off-campus prison programs for SIUC's Division of Continuing Education until he retired last summer, recalls that the University first went behind the walls with a journalism class at Menard State Penitentiary (as it was then known) back in 1956.

"Menard approached the university, seeking help for residents who were editing the prison newspaper, *The Menard Time*," Helwig said. "That first class was taught by Charles Clayton (now retired), who'd been an editor at the *St. Louis Globe-Democrat* for years before he came to SIUC."

President Delyte W. Morris liked the idea so much—as part of his "vision of regional service"—that instructors and the University donated time and effort to the program, Helwig said.

"Journalism classes still are taught there and *The Menard Time* now is recognized as one of the best prison news papers in the country," he said.

The program grew over the years. Helwig first became involved as an English instructor at Menard in 1964.

In the early days, SIUC concentrated on basic courses in such subjects as English and math. But when community colleges began to extend their efforts to prisons, SIUC put more emphasis on upper-level course work leading to degrees.

Since 1972, scholars behind the walls have earned approximately 50 degrees from SIUC, primarily in liberal arts and social sciences.

"We've also had numerous students in our institutional program who've come to campus after release to finish a degree or to obtain a master's degree," Stickel said. "These people are holding good jobs; they are solid, contributing citizens."

Research has shown repeatedly that education is the best preventative for recidivism.

Uncounted hundreds of SIUC faculty members have participated in the program over the years. The University now arranges to be reimbursed for partial costs and instructors receive extra pay for their efforts, Stickel added.

Spend \$7.7 million yearly

International students choose SIUC for academic programs

When 223 new international students at SIUC were asked in a recent survey why they chose to attend Southern, most said it was because of the academic programs offered.

According to the survey, conducted by SIUC's Office of International Education, 61 percent of those polled cited academic programs as being the deciding factor in their decision to attend the University.

Reasonable cost and friends at the University tied as next most common influences.

The survey, part of an orientation program for new international students, was aimed at determining why foreign students come to SIUC and how they first learn of the University, according to Jared Dorn, assistant director of the Office of International Education.

"With international student enrollment topping 2,000 this year, we decided to start looking at reasons for the growing numbers," he said.

The survey responses represent 44 different countries.

According to the study, the most popular majors at SIUC are engineering (25 percent), business administration (15 percent), and computer science (eight percent).

How do foreign students find out about the University? Nearly two-thirds of the students surveyed (64 percent) said they first heard about SIUC from someone in the United States, and about half of those sources were connected with SIUC.

"The data indicate that former and present students are a good promotional source for SIUC," said Dorn.

Of those who didn't hear about SIUC from someone in the United States, the most common source was through a scholarship service available in the home country (such as Fulbright), or through a foreign agency sponsoring study abroad, Dorn said. College catalogues in home-country libraries also ranked high as information sources.

Dorn said the study is part of a project which will be used to determine a formal enrollment policy at SIUC for international students. A second phase will attempt to identify sources of financial

support for SIUC foreign students.

It may not mean much to the nation's international balance of payments deficit, but foreign students who attend SIUC spend more than \$7.7 million a year while they're here, according to the University's Office of International Education.

And more than 80 percent of them bring their bankrolls with them when they come.

"A lot of people seem to think that these students are getting their educations at our expense," said Thomas Seville, a foreign-student advisor in the international education office. "It doesn't work out that way. Most of the funds come from their families or their home governments."

More than 1,450 students from other countries attended SIUC during the 1980-81 academic year, and 803 were enrolled this past summer, according to SIUC figures.

A study of foreign-student expenses prepared by the Institute of International Education (IIE) in Chicago shows that foreign students spend an average of \$498 a month while they're attending American colleges and universities. The total doesn't include strictly educational items such as tuition and fees, books and other school supplies.

SIUC requires all foreign students to demonstrate that they have access to \$7,250 a year in expense money, Seville said.

The IIE study estimates that 81.4 percent of foreign students pay their expenses with money they bring into the country, supplied by themselves, their families, their home governments or private sources. The study didn't identify where about 2.8 percent of the students got their school funds.

SIUC ranks 47th among the nation's colleges and universities in the number of foreign students enrolled, just behind Cornell University and ahead of Purdue. Illinois' foreign-student population puts the state in 10th place nationwide. Foreign students spend \$54.7 million a year in Illinois and almost \$1.3 billion across the country, according to the IIE study.

Elkins named top Agronomy teacher

SIUC plant, soil science professor receives honor

An SIUC professor has been named the nation's top agronomy teacher.

Donald Elkins, professor of plant and soil science in the SIUC School of Agriculture, has been awarded the 1981 Agronomic Resident Education Award of the American Society of Agronomy.

He received the award at a national meeting of the 10,000-member society Dec. 3, in Atlanta, Ga.

The award honors "educational innovation and teacher influences on student attitude and motivation."

The society cited Elkins' development of a self-instruction center for students, an extensive crops garden to help students identify common and uncommon plants and special studies of the educational problems of urban students in agriculture.

Elkins has twice been named the outstanding teacher in the SIUC school of Agriculture since joining the faculty in 1967. SIUC agriculture alumni also picked him for the school's faculty service award.

He won the National Association of College Teachers of Agriculture's (NACTA) Fellow Award in 1976 and

Donald Elkins

NACTA gave him its Ensminger Distinguished Teacher Award a year later.

He was one of three teachers at SIUC to be named Amoco Outstanding Teachers in 1978. He is listed in "Outstanding Educators in America."

Saluki Sports Shorts

by Fred Huff

The Henry Hinkley Award, one of the most coveted honors in men's athletics at SIUC, has been revived after a five-year absence. Lew Hartzog, long-time cross country and track coach and now acting director, made the announcement recently and at the same time released names of winners during the interim period.

"Members of our coaching staff feel the Hinkley Award is one which definitely needed to be restored to our program," Hartzog said. "All of us who have been around for a few years realize the importance of such prestigious awards as this and have modernized the method of selecting the recipient in order to assure continuity in future years."

Joint winners were selected for the 1976-77 school year by the nine-man Saluki coaching staff. Mike Glenn, who had been selected the previous year for his heroics on the basketball court, was named co-winner along with football standout Andre Herrera.

Glenn completed his four-year career with 1,878 points, second highest in SIUC's history. He was a high draft choice in the NBA and has played for Chicago, New York and now Atlanta since graduating.

Herrera was one of the finest ever to represent SIUC in football. He set three major records in his final season, 1976, by rushing for 214 yards in a sin-

gle quarter, 319 in a single game and 1,588 in a single season. His 287 rushing attempts in 1976, when he scored 16 touchdowns, is also an all-time SIUC mark.

Bob Roggy, premier javelin thrower who became Hartzog's sixth NCAA individual champion, was selected the Hinkley Award winner for 1978. Roggy claimed the national title by establishing a new NCAA championship meet record of 293 feet following a standout season when he set new standards almost weekly.

The following year's winner was determined to be gymnastics standout Dan Muenz. A Bill Meade product, Muenz was a member of the U.S. National team that season, finished 14th in the USGF championships, was a silver medal winner on the parallel bars in the Pan-American Games and also finished eighth in the Games' all-around competition.

Another track standout, David Lee, was the 1980 winner. Lee, who also claimed a NCAA individual title by winning the 400-meter intermediate hurdles, set a new Texas Memorial Stadium record when he was clocked in :48.7 seconds at the national meet. He had previously won the Kansas and Drake Relays events and led his teammates to numerous wins throughout the season.

The 1981 Hinkley Award title is shared by three

standout athletes—Lee, gymnast Brian Babcock and swimmer Roger VonJouanne.

Lee, although unable to successfully defend his NCAA title, finished second and added the Texas Relays record to his previous collection of honors during still another unbelievable season.

Babcock earned a position on the U.S. National team after being runner-up on the horizontal bar in the NCAA, where he was also seventh in all-around competition. Later, he was selected to compete in the U.S. Sports Festival and won a gold medal on the pommel horse and silvers in both still rings and all-around.

VonJouanne is "without a doubt the greatest swimmer in SIUC history," according to former Saluki swim star and present coach Bob Steele. VonJouanne had what many have called the greatest 24-hour performance ever when he set six school records and six NCAA qualifying times, including one American record, last season. The latter was a 1:45.0 in the 200 butterfly event. He later represented the U.S. in international meets in New Zealand and Japan, where he won two events and set records in both. He presently holds six individual school records and is on two record-holding relay teams. And, too, he appears ready for what may be a fabulous final season this winter as a member of Steele's 1982 squad.

Cage Strategy

Saluki Coach Allen Van Winkle (center) discusses plans for the final seconds in

the SIUC-Bradley game. Bradley won on a last second shot, 63-61.

Undergrads to star in winter sports

Underclassmen will play key roles for three 1981-82 Saluki winter sports teams.

Gymnastics coach Bill Meade's 26th SIUC squad will rely on sophomore strength in the form of John Levy, Kevin Mazeika, Charles Shelton and Dave Hoffman, all expected to be mainstays in all-around events, and specialists Lawrence Williamson (floor exercise), Herb Voss (pommel horse), Dave Splan (rings) and Tom Slomski (rings).

"Basically we're a sophomore team, and I expect the kids will make a few sophomore mistakes. We'll try to iron those out. By next year we may be ready to challenge for the national championship," said Meade.

Missing from this year's squad is All-American Brian Babcock, who is being red-shirted by Meade to enable him to compete next year and stay in top form for a shot at the 1984 U.S. Olympic Team.

Junior Jim Muenz and senior Cary Kowalski will provide the Salukis with the veteran leadership they'll need throughout a typically tough schedule that includes NCAA champion Nebraska, Penn State, Oklahoma, Ohio State, LSU and Illinois.

Despite their youthfulness and the absence of Babcock, Meade expects the 1981-82 Salukis to be improved.

Swimming coach Bob Steele could hardly be expected to predict improvement on last year's outstanding record (including SIUC's fourth consecutive National Independent Conference championship and 15th-place finish in the

NCAA championships), but Steele says a good crop of freshmen recruits gives the Salukis excellent depth in virtually every event.

"This year our quality in depth will be better than ever if the freshmen can swim their high school bests untested and show the improvement we expect by the end of the season," said Steele.

Steele lost four All-Americans to graduation, but returning are NCAA finalists Roger Von Jouanne, Conrado Porta and Anders Norling, as well as U.S. Swimming Championships finalist Pablo Restrepo.

Top newcomers are Kipp Dye, Chris Shaw and Jim Griffith. Steele expects them to help the Salukis achieve their best-ever results in the relay events.

The Salukis will swim against California, Missouri, Kansas, Nebraska, Iowa, Wisconsin, Illinois and Minnesota, in addition to competing in several invitational meets.

Wrestling coach Linn Long will rely heavily on freshmen this year (five of his 10 wrestlers are first-year men—all from Illinois). Returning veterans include senior Dale Shea (190), junior Tim Dillick (134), junior Keith Abney (126), and sophomores Mark Hedstrom (190) and Jerry Richards (118).

As usual, Long will take this—his 14th—Saluki squad against some of the nation's top wrestling teams, including several representatives of the always-tough Big Eight Conference.

Gridders compile 7-4 slate, overcoming early bumbles

A 23-15 victory over New Mexico State in Las Cruces ended a highly successful 1981 football season for SIUC. The Salukis rebounded from a series of early misfortunes that left them winless after three games to take seven of their final eight games and come within a touchdown of their first Missouri Valley Conference grid championship.

Conference laurels went to Drake, which shaded the Salukis 22-17 in SIUC's last home game, and Tulsa, a 36-34 victim of the Salukis. And while second place was not what the Salukis had their sights set on, the runner-up shot (achieved via 7-4 overall and 4-2 league records) represents impressive progress for a team that finished 1980 at the bottom of the MVC with a 3-8 overall record.

Coach Rey Dempsey will have the nucleus of this team to work with again next season, but replacements must be found at several key skill positions.

Third team All-American punter Tom Striegel, all conference place kicker Paul Molla and rushing leader Walter Poole all have completed their eligibility, as have defensive leader Tony Bleyer and all-

league offensive lineman Chester Cropp.

So Dempsey will hit the recruiting trails in search of kickers, linebackers and linemen.

One early-season problem spot—a hold-over from last year—was the Salukis' passing attack. That was resolved with the emergence of quarterback Rich Johnson and wide receivers Marvin Hinton and Tony Adams.

Johnson completed 56 percent of his passes for 1,296 yards. His most reliable target was the sure-handed Hinton, who caught 36 passes for 499 yards. The speedy Adams gained poise as the season went on, and finished with 12 catches for 180 yards, including two key receptions against Drake.

Dempsey's ability to recruit replacements for Striegel and Molla appears to be a key to the 1982 season outlook. Striegel's booming punts (he averaged 45.9 yards a kick) represented an important weapon in the Saluki arsenal. Molla was SIUC's leading scorer with 68 points on 15 field goals and 23 points after touchdowns.

Women Netters

Pictured are the 1980-81 women's tennis team. Top from left: Alessandra Molinari, Lisa Warren, Amanda Allen, Heidi Eastman, Stacy Sherman,

Suzanne Garoian, Maureen Harney, Bottom from left: Coach Judy Auld, Mona Etchison, Tammy Laertz and Becky Ingram.

Simonds gives \$50,000 to athletic pot

Carbondale businessman and civic leader E. T. Simonds helped SIUC kick off its first formal area fund-raising effort for intercollegiate athletics with a \$50,000 gift that will benefit both Saluki athletics and the University's Morris Library.

Simonds' donation came during the first week of the Saluki Futures fund drive, which was launched Nov. 2 by Bruce R. Swinburne, vice president for student affairs.

The campaign goal is \$150,000, at least 10 percent of which is earmarked for an endowment fund intended to insure long-term growth and development of Saluki athletics.

The Saluki Futures has netted nearly \$30,000, bringing total contributions to the SIUC's athletics program to more than \$110,000 this year.

Some 200 field teams were charged with making 2,000 contacts during the Saluki Futures campaign. They worked under the direction of 20 "chair teams" consisting of Saluki coaches and community leaders from throughout Southern Illinois.

Swinburne said the Saluki Futures effort is a first step in an effort to expand public support for Saluki athletics.

"If we are to keep pace with inflation and continue to maintain the quality and diversity of our athletics programs, we're going to have to improve considerably on the self-generated portion of our budget, of which a large part comes from outside contributors," said Swinburne.

The University's 1982 fiscal year budget for the 12-sport men's program and the 10-sport women's program is \$2.6 million. Student fees contribute \$1.6 million, and outside contributions are projected to add another \$116,000. State dollar contributions total \$930,000.

Sonya Locke

First Volleyball player

Salukis' Sonya Locke named All-American

Saluki volleyball star Sonya Locke has been selected to the 12-person AIAW All-America team—marking the first time an SIUC volleyball player has been honored as an All-American.

Locke, a junior middle blocker, led the Salukis to a 30-17-1 record and third place finish in the Midwest Regionals, the team's highest finish in a decade. She was the top vote-getter on the Midwest All-Regional squad.

"She is very deserving," Saluki coach Debbie Hunter said. "It's gratifying to see her get recognition against such a high-caliber competition. She is a sound player, and excels in every dimension of the game."

Locke led the Salukis in blocking and spiking, posting 411 kills this season. She also served up 79 aces, and compiled an impressive 3.2 efficiency rating in passing.

The South Bend, Ind. native was surprised by the selection.

"Seriously, I didn't think I would get it," Locke said. "There were 36 people nominated, and our team didn't get that far in post-season play, so I didn't think my chances were that good."

Locke credits her success to the close relationship she has with her teammates—a tradition advocated by Coach Hunter.

"There is no way an individual can carry a team—they made me an All-American," she said.

As an All-American, Locke is eligible for the six-player Broderick team. The selection of those players will be drawn from both AIAW and NCAA All-America teams.

This is the second time Locke has received national recognition for her outstanding volleyball ability. Last summer, she was a member of the Midwest squad that captured the silver medal at the National Sports Festival in Syracuse, N.Y.

Cagers dispose of losing streak

The basketball Salukis wasted little time disposing of the 18-game losing streak that had hounded them since the close of last season, dropping Southeast Missouri in their season opener, 91-67 at the Arena.

Featuring a disciplined offense and a tight half-court defense, the Salukis rang up three wins in their first four games, the loss coming at the University of Charleston, where SIUC fumbled away a 13-point lead in the closing minutes.

But the Salukis rebounded with a home-court victory over a veteran Murray State squad, 71-65, despite blowing another big lead, and followed that with a 90-77 drubbing of Eastern Illinois. Point guard James Copeland sparked in both games.

Copeland's passing and ball-handling skills have added an important dimension to the Salukis' offense. The transfer student played for SIUC Coach Allen Van Winkle when Van Winkle was at Jackson (Mich.) Community College.

Another juco transfer, junior Ken Byrd, led SIUC scorers with 22 points in the win over Eastern. Copeland bagged 18 and handed out seven assists.

Virtually all the Salukis saw plenty of

action during the early going, as Van Winkle searched for successful combinations before plunging into Missouri Valley Conference competition.

Quickness and defense are two keys for the first-year SIUC coach in putting together a starting lineup. Senior center Rod Camp, leading scorer and rebounder last season, has played a reserve role this year. Charles Nance has moved to starting center in lineup in place of Camp.

Thus far the Salukis are 6-8, winning games against Southeast Missouri (91-67), Murray State (71-65), Eastern Illinois (90-77), University of Indiana-Evansville (84-59), Illinois State (72-68) and Indiana State (83-74).

The cagers lost games to University of Charleston (58-61), Evansville (51-97), Loyola (57-68), University of Illinois-Circle (61-76), Kansas State (53-82), Creighton (59-77), Drake (55-63) and Bradley (61-63).

Balanced attack key to women's basketball team

A balanced attack has been a key to a fast start for SIUC's women's basketball team. Three different starters led all scorers in the Salukis' first three games of the year—all victories.

Sue Wright's 15 points paced the SIUC attack in a 68-62 season-opening win over Murray State. Sue Faber, returning after a two-year layoff due to a knee injury, scored 26 points in an exciting 77-76 victory over Indiana. Then sophomore Char Warring hit a career-high 21 points in a 68-55 romp over Southeast Missouri.

Faber has been a pleasant surprise for coach Cindy Scott, who thought she'd seen the last of the talented forward after Faber tore up her knee in December of 1979. But, her knee rehabilitated, Faber has returned to lead the Salukis in rebounding and become one of SIUC's most consistent scorers.

Rebounding has been a problem, however; one the Salukis will have to correct if they're to handle such toughies as Northwestern, Illinois-Chicago Circle, UCLA, Murray State, Illinois State, Western Kentucky, Drake and Missouri.

The Salukis will be hosts March 3-5 for the first-ever Missouri Valley Conference Tournament for women. The winner of that tourney will receive an automatic invitation to the 1982 NCAA Tournament.

Numbers hurt SIUC's women swimmers in the Dec. 4 Illini Invitational. The Salukis entered 13 of a possible 18 swimmers in the meet, which included host Illinois, Wisconsin, Purdue, Texas A&M and Iowa State.

The Illini won the meet, but only after overtaking the Salukis in the final event, the 400-meter freestyle relay. SIUC swimmers set 11 pool records in the invitational, including four by freestyler Janie Coontz and two each by Barb Larsen (100 and 200 butterfly) and Amanda Martin (50 and 200 breast stroke).

Coach Tim Hill's squad held a dual-meet record of 4-0 entering the Illini Invitational, including a victory over perennial swimming power Indiana in the Recreation Building pool.

Injuries struck down two of SIUC's top all-around gymnasts Dec. 5 at a meet at Ames, Iowa. Sophomore Mary Runck took a bad fall from the uneven bars, suffering a back injury that will sideline her indefinitely, and freshman Patty Reaves sprained a foot, taking her out of action for the rest of the month.

The Salukis finished behind meet winner Western Illinois, and defeated host Iowa State, but coach Herb Vogel had to postpone two December meets because of the team's depleted ranks in the all-around events.

Saluki Spirit

Leading the Salukis as they do battle with opposing teams are 16 cheerleaders all from Illinois. They are front row (l-r): Lew Lanker of Paris; Jarrold Brown of Centralia; Scott Hable of Washington; Pete Greider of LaGrange; Aud Rusenas of Chicago; Doug Garrard of Glenbard; Mark Collins of Peoria and Scott Belt of

Morris. Back row (l-r): Lisa Lang of Marion; Lori Jones of Rantoul; Ronda Greenwell of Wood River; Dalisa Crocker of Wayne City; Trina Green of Chicago; Karla Coleman of Carbondale; Leigh Barnfield of Benton and Lori Cecil of Carbondale. The mascot is Marla Harrison of South Bend, Ind.

Women netters mold 11-3 record

SIUC's women's tennis team bounced back from an opening defeat to SIU-Edwardsville by winning nine consecutive matches to mold an 11-3 overall record this fall.

A 6-3 upset over Louisville was a season turning point that gave Coach Judy Auld her best record in seven years.

"The younger girls realized they were good after the Louisville victory," Mrs. Auld added, alluding to freshmen Amanda Allen, Heidi Eastman and Alesandra Molinari.

The newcomers combined for a 36-13 singles record this fall.

Eastman and Allen teamed up for an impressive 14-9 slate at the number one

doubles spot. Both are from Galesburg.

A freshman from Stockholm, Sweden, and Auld's first foreign athlete, Molinari posted a 12-4 singles record after recovering from a slipped disc and spending four months in bed before coming to SIUC.

Freshman walk-on Maureen Harney of Peoria was impressive at the number six doubles spot, posting an 8-2 record.

Auld said she is looking forward to the longer 1982 spring schedule and hopes to win 20 matches over the split season.

SIUC posted wins over Wheaton College, Louisville, St. Louis, Missouri, Illinois State, Memphis State, Sangamon State and Southwest Missouri, while losing to Illinois, SIUE and Murray State.

Lu Kuhlmann Burch, '75, advertising coordinator for Osco Drug (left) and Marion Harris, advertising coordinator for Osco Drug, share their on the job experience with SIUC marketing student Jeff Kole (right). Mrs. Burch and 12 other SIUC alumni hosted students from the SIUC College of Business and Administration during a recent "Jobs for a Day" program in Chicago. The program was sponsored by the SIUC Business Alumni Association's Chicago Area Chapter, lets students share a typ-

ical day with alumni who work in their fields of interest. Among the participating firms were: The Northern Trust Bank, Illinois Bell Telephone, Emerson Electric, Amoco Oil, Osco Drug and Northern American Plastics. The success of the program has prompted the Chicago group to plan a Career and Job Interviewing Day in Chicago this spring. Interested persons should contact the SIUC Business Alumni Association, P.O. Box 434, Lisle, Ill.

Renovation has eaten up another traditional SIUC student hangout and in the process done away with a small piece of downtown Carbondale history.

For the past 22 years, the Varsity Grill, 420 S. Illinois Ave., has served burgers, sandwiches, fries and breakfast to students making jaunts along Carbondale's "Strip."

While the grill was never too ornate, it did offer good food at reasonable rates and a place to hit a book or two over a cup of coffee—if you could handle such micro-environmental clutter as pinball games.

Owner Frank Hiller, who attended SIUC in 1960, 1961, and 1963, said he is being forced to close by the owners of the Varsity Theater building (Kerasotès Brothers Theaters Inc. of Springfield). The building now houses three theaters and the owners are said to be planning some related improvements in the old grill.

When Hiller came to Carbondale in 1958, he was in the market for a dry cleaning location. But the (then) Varsity Drug Store was such a good deal he couldn't turn down the opportunity.

Morgan S. Ruph, former coordinator of the SIUC's Office of Veterans Affairs, has been named executive director of AMVETS, the nation's largest veteran's group.

Ruph's appointment was approved in early December by the Maryland-based AMVETS National Executive Committee.

As executive director, Ruph will be responsible for AMVETS services to veterans, programs and national membership.

A 1977 SIUC graduate in psychology, he received his master's degree in occupational education in 1981 and currently is working on his Ph.D. in education.

Ruph served in the Air Force from 1968 to 1977 in Southeast Asia and is a member of AMVETS Post 6, Carbondale. He served last year as vice president of the National Association of Veterans Program Administrators and is a past president of the Illinois Veterans Congress.

Three 1981 SIUC graduates have been selected by their classmates to represent their class on the Alumni Legislative Council, the governing body of the Alumni Association.

Paul Matalonis of St. Charles was selected class representative, with Jeffrey Goffinet of Benton and Pamela J. Kelley Billingsley of Murphysboro as first and second alternates.

Matalonis, president of the undergraduate student body in 1981, received bachelor's degrees in business economics and political science in August. He was a member of the University Task Force for the Study of Public Service, the University Intercollegiate Athletics Commission, the President's Budget Advisory Committee and the Student Advisory Committee to the Illinois Board of Higher Education. He is now enrolled in SIUC's School of Law.

Goffinet, a journalism graduate, served as editor of the *Daily Egyptian* in 1980. He was a member of the SIUC debate team and was a Deans' List student. He's also in law school.

Mrs. Billingsley received a bachelor's degree in food and nutrition with a minor in journalism. She was a member of Omicron Nu Home Economics Honor Society and served as a student representative to the College of Human Resources Advisory

Council and the Divisional Executive Officer Search Committee. She was graduated with honors.

The Alumni Legislative Council meets annually at Homecoming. Three members from each SIUC class are selected for five-year terms and vote on such matters as Alumni Association bylaws and dues.

SIUC engineering student James L. Higginbotham Jr. of Murphysboro received the Lincoln Academy of Illinois' Student Laureate Award at ceremonies Nov. 21 on the floor of the Illinois House of Representatives.

Higginbotham, a President's Scholar and University Honors student, is working toward a Special President's Degree in solar energy applications. Supervising his work is physics professor Walter L. Borst, who nominated him for the Lincoln Academy award.

Higginbotham expects to be graduated this spring with the special degree, as well as another in thermal and environmental engineering.

The award goes each year to a few superior undergraduates at Illinois colleges and universities.

A. Diploma Plaque—Have your degree(s) reproduced on a handsome silver-stain finished metal plate mounted on an 8 x 10 walnut base. Mail diploma, check and return address to Associates Engraving Co. Inc., 2731 N. 31st St., Box 2606, Springfield, Ill., 62708. \$29.95.

B. License Plate Frames—\$7 a pair or \$3.50 each.

C. Ceramic Mug—(New) 12 oz.
Just the thing to hold your hot
chocolate on those cold evenings.
\$7.00.

D. Soft and cuddly Saluki stuffed dog, white with maroon, 15" tall, \$14.95. Price includes tax and postage.

E. Sweatshirt—Long sleeve. Children (C) available in M, L, \$8.95. Adults (A) available in S, M, L, XL, \$9.95. Choice of (a) block SIU (b) SIU logo or (c) Alumni Association logo. White with maroon, maroon with white. Specify color and style.

F. Sock hat, one size fits all,
\$5.50. **Baseball cap**, maroon with

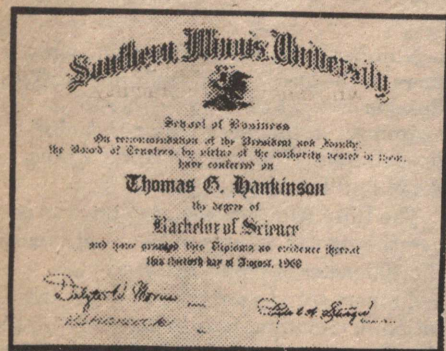

white, \$5.50 **Visor** (not shown), \$4.95.

G. Decals—(New) An assortment of five different decals. \$3.50.

H. V-Neck Sweater—Maroon with SIU logo. Available in Adults S, M, L, XL. \$15.

I. Notebooks—(New) Three assorted SIUC notebooks. \$5.50.

J. Needlepoint—(New) Small 10 square, \$15.50 or Large 14 square, \$33.50. Specify size.

GET SET FOR THE GREAT SUMMER GETAWAY!

Winter blahs got you down? Now's just the time to plan your summer vacation.

To help tantalize you, the SIUC Alumni Association has two exciting, yet economical summer camping programs to choose from.

By popular demand, the Association is offering Alumni Family Camping programs again this year at both Camp Brosius, Wis., and Little Grassy Lake.

The Association has made arrangements with Indiana University to use its alumni camp facilities at Camp Brosius on the shores of Elkhart Lake in the heart of Wisconsin's resort area, 55 miles north of Milwaukee, for one week in July.

"Alumni who participated in the camp last year raved about the facilities and the food," said Robert Odaniell, executive director of the Association. "We're pleased to be able to participate again."

The camping session at Camp Brosius will be July 4-10 and will offer three types of accommodations:

1. Cottages: Three separate cottages, each of which has private apartments. Because of their size and facilities, all cottages have a minimum occupancy number assigned to them. Two require a minimum of seven persons and one requires a minimum of five.

2. A 14-room inn with an eight-bedroom annex, four cabins on a hill and a "Cabent." All have private facilities.

3. Rustic cabins located on high ground of the camp approximately 50 yards from the main dining room. Restrooms and showers are located near these cabins.

Prices are: (1) Cottages: Adults and teenagers, \$235 each per week; children ages three to 12, \$177 per week; and infants age two and under, \$83 per week. (2) Inn-annex group: Adults and teenagers, \$215 per week; children ages three to 12, \$157 per week; and infants, two and under, \$83. (3) Rustic cabins: Adults and teenagers, \$161 per week; Children, \$115 per week; and infants, \$50 per week.

Rate structures are based on the unit's size, amount of furniture, and in some cases facilities. Linens and limited maid service are included with the Cottages and inn group. Except for these differences, all campers receive the same basic service.

Excellent food is the trademark at Camp Brosius. Campers will enjoy 17 meals served in a variety of ways, ranging from family style to smorgasboard to picnics. Meals start with Sunday dinner and continue through Saturday breakfast.

Alpha Kappa Alpha celebrates 30th birthday

SIUC's Alpha Kappa Alpha Sorority, Delta Beta chapter, will commemorate the 30th anniversary of its chartering, April 16-18 on the SIUC campus.

A full slate of activities has been scheduled to celebrate the chapter's founding in 1952, according to co-chairpersons Harriet E. Wilson, '74, M.S. '79 of Murphysboro and Susan M. Smith, '79, of Park Forest.

An "oldies" informal dance is set for April 16 from 9 p.m. to 1 a.m. at Carbondale's Brown Bag, 622 E. Main St. A formal dance will be held the following night at the Carbondale Holiday Inn and rededication ceremonies will be April 18 in the SIUC Student Center ballrooms.

AKA, the first Black sorority in the country, currently boasts a national membership of over 75,000 women in the United States, the U.S. Virgin Islands, the Bahamas and West Africa.

Information is available from Ms. Wilson, in the SIUC Admissions and Records Office (618-453-4381), or from Debra A. Kimbrough, Delta Beta Chapter president (618-453-5714). Mail inquiries should go to Delta Beta Reunion, P.O. Box 77, Carbondale, Ill., 62901.

Recreational activities include swimming, boating, nature study, arts and crafts, wilderness tours, campfire gatherings, cookouts, sailing, horseback riding tennis and water skiing. Fees for boats and water skis are not included in the basic charges.

Professionally-staffed day care is available for infants. Late evening babysitting can be arranged at your expense.

Families may also take sight-seeing tours, go to a Milwaukee Brewers game, visit a brewery or tour the Milwaukee Zoo.

SIUC faculty members will be in residence to present seminars in their specialties.

Plans for the Little Grassy Lake Alumni Family Camp have not been completed, but complete details will be published in the March *Alumnus*.

Limited reservations for Camp Brosius are on a first-come, first-served basis and must be accompanied by a \$50 per person check to confirm. A reservation deadline will be set in the March issue of the *Alumnus*.

All members of the SIUC Alumni Association and their families are eligible to participate. Anyone who has attended SIUC for one semester is eligible to belong to the Association. If your dues aren't current, include \$10 (with your deposit) for an individual one-year membership or \$12 for a family membership.

The camps offer something special for everyone—except pets. They must stay at home or in a friendly kennel.

For complete details, or to make reservations, write the SIUC Alumni Office, Student Center, SIUC, Carbondale, Ill., 62901. (Phone 618-453-2408). Make checks payable to the SIUC Alumni Association.

Keith Sanders co-authors book

Keith R. Sanders, governmental relations officer for the SIU System, is co-editor of a newly-published book on political communication. Sanders, a professor in the department of speech communication, holds bachelor's and master's degrees from SIUC.

The book, a collection of 24 original essays, explores the role of communication in the political process. It includes essays by SIUC speech communication professor Richard L. Lanigan; Roy Miller, associate professor in SIUC's department of political science; Lynda Kaid, a three-degree graduate of SIUC ('70, '72, '75) who's now on the faculty at the University of Oklahoma; and Philip Wander, a 1963 SIUC graduate and professor of speech communication at San Jose State University. SIUC journalism professor Erwin L. Atwood co-authored an essay on election campaigns.

Home Ec scholarship fund available

Persons interested in pursuing a doctoral degree in home economics at SIUC now may apply for the Letitia Walsh Scholarship to cover educational expenses.

The Letitia Walsh Scholarship, named for a former faculty member in the SIUC School of Home Economics, is a \$3,000 grant which is presented annually to someone seeking a Ph.D. in one of the home economics fields.

SIUC graduates, current students or faculty members are eligible to apply.

The application deadline is Feb. 1, 1982. Applicants should get in touch with Dorothy Keenan, chairperson of the Letitia Walsh Award Committee, Home Economics Education, SIUC, Carbondale, Ill., 62901. (Phone 618-453-3321).

Alumni Calendar

Feb. 2-3—**WILLIAMSON COUNTY TELEFUND.**

Feb. 6—**BLOOMINGTON AREA ALUMNI CLUB**, reception following the SIUC-Illinois State University basketball game at Chuck's Deli, 107 Beaufort St., Normal. Contact Roy Scrivner (309-663-2258) for details.

Feb. 8—**EAST CENTRAL ILLINOIS ALUMNI CLUB**, reception following the SIUC-Eastern Illinois University basketball game at Norma's Original Steak House, 801 West Lincoln, Charleston. Contact Bill Hollada (217-234-3113) for details.

Feb. 11—**PEORIA AREA ALUMNI CLUB**, get-together prior to and following SIUC-Bradley basketball game at Pizza Hut, 424 N. Western Ave., Peoria. Contact Jim Hartford (309) 346-1161 for details.

Feb. 12-14—**FRENCH LICK VALENTINE WEEKEND ALUMNI TRIP**, bus trip to French Lick (Ind.) Springs Resort. Includes round trip from Carbondale in a deluxe motor coach, two nights, deluxe rooms, six meals (including a Saluki cocktail party), swimming in a glass-domed pool, indoor tennis, ice skating (bring your own skates) and skiing. Cost is \$265 per couple. Price for singles and children upon request. Reservations are on a first-come, first-served basis. Send \$25 per-person reservation check to Alumni Office, Student Center, SIUC, Carbondale, Ill., 62901. Make checks payable to the SIUC Alumni Association. Information is available from the Alumni Office (618-453-2408). See related advertisement.

March 13-22—**CAMPUS SPRING BREAK.**

April 17—**SIUC ALUMNI ASSOCIATION** Board of Directors meeting, Ramada Inn, Carbondale.

April 23—**FRANKLIN COUNTY ALUMNI CLUB** High School Honors Banquet. Contact Hugh Frailey (618-435-4911) for details and reservations.

April 24—**MASSAC COUNTY-PADUCAH AREA ALUMNI CLUB** Golf Outing and dinner. Contact Michael Moorman (618-524-8043) for details and reservations.

April 30—**WILLIAMSON COUNTY ALUMNI CLUB** High School Honors Banquet. Contact Dwight Lemasters (618-993-8890) for reservations and details.

May 15—**SPRING COMMENCEMENT.**

June 15—**SUMMER SEMESTER BEGINS.**

June 26-July 3—**ALUMNI CARIBBEAN CRUISE** on the beautiful flagship Song of Norway, Royal Caribbean Lines. Vist Porta Plata, Dominican Republic; San Juan, Puerto Rico; and St. Thomas, Virgin Islands. Air/Sea departures from St. Louis, Chicago and Indianapolis. Other departure points on request. Contact the Alumni Office for details and reservations (618-453-2408).

July 4-10—**ALUMNI FAMILY CAMP**, Camp Brosius, Elkhart Lake, Wis. See related article.

July 7-10—**FIRST ALUMNI DELUXE MOTOR COACH WORLD'S FAIR TOUR**, Knoxville, Tenn. Accommodations at University of Tennessee Residence Halls. Contact the Alumni Office for details and reservations. Act now because space is limited and reservations are on a first-come basis.

July 21-24—**SECOND ALUMNI DELUXE MOTOR COACH WORLD'S FAIR TOUR**, Knoxville, Tenn. Accommodations at University of Tennessee Residence Halls. Contact the Alumni Office for details and reservations. Space limited; reservations on first-come basis.

Aug. 7—**SUMMER COMMENCEMENT.**

Aug. 23—**FALL SEMESTER BEGINS.**

8 The Classes

32

C. E. Courtright lives in Sumner, where he taught high school before retiring in 1964.

33

Harold E. Adams and his wife, Elma, live in Broomfield, Colo. He is a retired mathematics teacher at Thornton Community College.

34

Richard Thomas Arnold is the department chairman of chemistry and biochemistry at SIUC. He and his wife, Doris, live in Carbondale.

Aubrey C. Land is a research professor in the department of history at the University of Georgia. He lives in Athens, Ga. Land won the SIUC Alumni Achievement Award in 1971 for professional achievement. He is the author of several books.

C. Glen Miller is retired and lives with his wife, Wilma, in Melvin.

35

H. E. Atherton has a medical practice in Memphis, Tenn., where he lives with his wife, Elizabeth.

Lois Ailes is retired and lives in Belleville.

Allen W. Graves of Louisville, Ky., represented SIUC at the Sept. 22 inauguration of Donald C. Swain as the new president of the University of Louisville. Graves is the former dean of the School of Religious Education at Southern Baptist Theological Seminary and now is professor of religious studies there.

Noel M. Taylor is a retired Baptist minister. He was the vice president of the Southern Baptist Convention during 1957-58. He and his wife, Edna, live in Carbondale.

36

Evelyn A. Anderson is retired and lives in Hendersonville, N.C.

Clarence A. Armstrong and his wife, Lois, live in Belleville. He is retired.

37

Jerry Cuendet is superintendent of schools for the Mill Valley (Calif.) School District. His wife, **Pat, '59**, teaches in San Rafael. Cuendet is the former superintendent of schools in Carterville.

Help a kid get work

Inflation is taking its toll. Just ask any of SIUC's 24,000 students.

To help many of them ease the financial burden of their education, the SIUC Alumni Association is seeking assistance in finding summer jobs for students.

For a large number of students, summer jobs are musts if they want to keep going to school. Scholarships and loans just haven't kept pace with all the students' financial needs. So for many, a summer job is a make-or-break proposition.

YES, I want to help find an SIUC student a summer job.

NAME: _____

ADDRESS: _____

JOB(s) Available: _____

LOCATION: _____

WHOM TO CONTACT: _____

The Alumni Association is asking you to get involved in summer job placement.

If you know of any full-time or part-time jobs, or any summer internships, please get in touch with the Alumni Association, Student Center, SIUC, Carbondale, Ill. 62901 (phone (618) 453-2408).

Indicate what the job is, whom to reach, the salary, when the position is available and where the job is located.

SIUC students are available to work from May 16 to Aug. 25.

Class Year _____

Telephone _____

Deaths

1920s

Ruth Maxwell, '23-2, of Nashville, died Oct. 1, 1981, at Washington County Hospital in Nashville. She had been a grade school teacher in Washington County for over 30 years. She is survived by a brother.

Emma Brickey, '25, of Jonesboro, died Oct. 8, 1981, at Union County Hospital in Anna. She was a retired school teacher.

Ira L. Kimmel, '29, died Aug. 17, 1979, at Dominican Hospital, Santa Cruz, Calif. Mr. Kimmel, 74, was a retired teacher and school administrator. He began his career teaching in a one-room school in Jackson County, where he and his father attended school and where his grandfather served as a school board member for 40 years. He was superintendent of the Royalton public schools for 15 years and retired as superintendent of Scott County Community Unit School District No. 1 in 1958. Survivors include his wife, **Wilma Theiss Kimmel, ex '29**, of Murphysboro; a son, a daughter, a sister, eight grandchildren and two great-grandchildren.

1930s

Ruby Harris Anderson, '30, died Aug. 2, 1980. She is survived by her husband, **Virgil, '58**.

Minnie Williamson, '30-2, of Metropolis, died March 5, 1981.

Gail Boynton, '31-2, of Iuka, died Feb. 18, 1977.

Frances Matthews Braley, '31-2, died Sept. 27, 1977.

KIMMEL

E. Leslie Fishel of Belleville, '31, died Nov. 16, 1980, at Barnes Hospital in St. Louis. He was a high school teacher for 26 years. Survivors include his wife, **Lena Mahana, '31**, and two sons.

Virgil Hardin, ex '31, of Visalia, Calif., died in August, 1981.

Alva Hardin, ex '31, of Visalia, Calif., died Jan. 8, 1978.

H. E. Webb, '34, '29-2, of Troy died of a head injury sustained in a fall on ice during the winter of 1948. At that time he was assistant county superintendent of schools in Madison County. He also taught in Union County schools. His wife, **Eloise Webb, '51**, survives.

Ralph (Tin Ear) Johnson, ex '36, of Carbondale died Oct. 13, 1981, at Memorial Hospital in Carbondale after a lengthy illness. He owned and operated Johnson's Standard Service Station on Carbondale's Illinois Avenue from 1935 to 1976. His long tenure at the station earned him the unofficial title of "Mayor of South Illinois Avenue." Survivors include his wife, **Helen Rogers, '32-2**.

Imogene Souther, '36-2, of Christopher, died Oct. 13, 1981, at Franklin Hospital after a brief illness. She was a retired teacher who had served at schools in Christopher and

Nebraska. Survivors include her husband, **Dolph, ex '38**; a sister and a niece.

1940s

William D. Hatley, '47, chancellor of the Metropolitan Community Colleges in Kansas City, Mo., died Sept. 13, 1981, at St. Luke's Hospital in Kansas City. Mr. Hatley, who was 59, began his teaching career in 1952 as an economics and social sciences instructor at the former Kansas City Junior College. He moved upward quickly through administrative ranks and in 1969 became the first president of Longview (Mo.) Community College, which he "built from the ground up." Mr. Hatley served the metropolitan system as vice chancellor for public affairs in 1976 and is credited for getting then-floundering Maple Woods Community College on its feet within a year after becoming its president in 1977. He was a native of West Frankfort. Surviving are his wife; his mother, of Carrier Mills; two sons, a daughter, and two brothers.

Eugene Wallis Aikman of Greenville, '49, formerly of North Litchfield, died Feb. 13, 1980, following a long illness. Survivors include his wife, **Nina Crawford, '48**; two daughters, two brothers and a sister.

1950s

The Rev. Gustav Roesener, ex '50, of Nashville, formerly of Chester, died Sept. 24, 1981, in Nashville. He retired in 1959 after serving 41 years with the ministry in pastoral assignments that ranged from Canada to Southern Illinois.

Faculty

George W. Adams, former chair-

man of the SIUC department of history, died Nov. 5, 1981, at the St. Francis Medical Center in Cape Girardeau, Mo., following a short illness. He was 75. A native of Jacksonville, Mr. Adams retired from the history department in 1973 after 15 years on the faculty. His career in college teaching and administration spanned 45 years and included appointments at institutions from Austria to Alaska. A specialist in Civil War history, Mr. Adams was the author of *Doctors in Blue: The Medical History of the Union Army in the Civil War*. He and his wife were living at the Chateau Girardeau retirement community in Cape Girardeau at the time of his death. Survivors include his wife, a daughter, a sister and two grandchildren.

David L. Rich, an assistant professor in SIUC's Division of Aviation Technologies, died Nov. 2, 1981, at his Carbondale home from complications of cancer. He was 60 and had taught in the SIUC program since 1968. A 30-year aviation industry veteran, Mr. Rich owned and operated a service station in Coden from 1945 to 1950 and served in World War II and the Korean conflict. From 1951 until 1960 he was chief maintenance inspector for Anderson Aviation Activities in Malden, Mo., and during 1961 he worked for Walston Aviation in East Alton. He came to SIUC's Air Institute and Service in 1961 and became an instructor of metals and processes for the School of Technical Careers Aviation Technologies program in 1968. He is survived by his wife, **Lucille**, and two children.

Births

To Mr. and Mrs. **James M. Castagna, '63, M.S. '65**, of Seymour,

Texas, their fifth child, third daughter, **Sonya Kay**, born July 29, 1981.

To Mr. and Mrs. **Timothy W. Higham, '71**, of Sycamore, their first child, a son, **Lance Garrett**, born Aug. 3, 1981.

To Mr. and Mrs. **Richard L. Nichols, '71**, of North Palm Beach, Fla., their first child, a daughter, **Bethany Anne**, born June 29, 1981.

To Mr. and Mrs. **Robert W. Siegworth, '71, M.S. '73**, of Barrington, their first child, a daughter, **Abbey Laurel**, born June 28, 1981.

To Mr. and Mrs. **Michael A. Cushing, '72**, of Chicago, their fourth child, second son, **Ryan Joseph**, born Feb. 17, 1981.

To Mr. and Mrs. **Michael R. Patterson, '72 (Sally Kolens, '73)**, of Austin, Texas, their second child, first daughter, **Kate**, born Feb. 7, 1981.

To Mr. and Mrs. **Goeffrey P. Young, '72**, of Memphis, Tenn., their second son, **Geoffrey Michael**, born Aug. 6, 1980.

To Mr. and Mrs. **Gary L. Ebers, '73, M.S. '76 (Denise L. Rabe, '73)**, of Sparta, their third child, second daughter, **Jennifer Denise**, born Aug. 9, 1981.

To Mr. and Mrs. **Jeffrey Richard Husar, '73 (Susan Carol Krugler, '74)**, of Chicago, their first child, **Jennifer Lynn**, born May 15, 1980.

To Mr. and Mrs. **Howard C. Hunt (Victoria Shepard, '74)** of Glenview, a daughter, **Kristine Marie**, born Jan. 14, 1981.

a valentine

you won't forget... at a price you won't believe!

\$265 per couple

February 12, 13 and 14
... a valentine that says
it all!

Skiing. Swimming. Ice skating.

Indoor tennis... plus

dancing, mineral-water bathing,

cocktail partying, six meals,

round trip by motor coach...

and more... much more!

Final payment due: Jan. 30, 1982
